

# Math FUNdamentals Club

## Grades 1-8

Saturdays 8:30-10am or 10-11:30am

Free up your time on the weekend by letting us help with your children's Mathematics homework and also help improve their FUNdamental skills!

- Is your son or daughter playing too many video games, you tube, watching tv?
- Do you feel your child is not receiving enough homework?

*Our new program will allow the student to work on their current homework concepts and also improve on fundamental math skills through fun games, puzzles and real life activities! We will cover the following topics:*

- *Multiplication Tables, Long Division, Word Problems, Fractions, Integers, Patterning, Conversion, Geometry, Measurement, Probability, Graphing*
- *Money Concepts including how to set-up a budget*
- *Test prep, homework, organization and how to study*
- *EQAO preparation*
